#### Job description

We are looking to recruit 6 Craft Apprentices to complete a 3-year Modern Apprenticeship in Electrical or Mechanical Engineering. The training programme will include the attainment of Core skills at intermediate level one, Performing Engineering Operations (PEO), a National Certificate in either Electrical or Mechanical Systems Engineering and a level 3 SVQ in Electrical or Mechanical Engineering during phases 2 and 3 of the training programme.

The first phase of the training schedule will be delivered off-site by our Apprentice Training partner East Kilbride Group Training Association (EKGTA) at their East Kilbride facility. As the training provider is within daily commute of DM Beith, all candidates will be expected to make and fund suitable travel arrangements to ensure their timely attendance between the

#### Technical skills

We'll assess you against these technical skills during the selection process:

- Making evidence-based decisions
- Engineering projects or competitions you have been involved in

Simply click on the link to apply and submit your application with your CV. It is essential that you clearly highlight, through example, your experience in these areas within your CV.

For additional guidance on writing a CV for DE&S, please click [here](#)

All the above areas will be taken into consideration when selecting applicants for interview. For instance, details where you may have completed an engineering project, or have a particular engineering related hobby.

#### Things you need to know

##### Security

Successful candidates must pass a disclosure and barring security check.

All information has been shared to school coordinators with an interest in Developing the Young Workforce, Skills Development Scotland and the events programme highlighted for Lanarkshire & East Dunbartonshire. Offers highlighted are targeted for DYW Champions to cascade the Scottish Government DYW priorities.

	<p><b>About the job Summary</b> Defence Munitions (DM) Beith is a Ministry of Defence (MOD) Establishment. It is a component part of the Weapons Operating Centre (WOC) and in turn forms part of the larger Defence Equipment and Support (DE&amp;S). At Beith, we manage the storage, safety, technical compliance and co-ordination of processing and distribution of complex munitions.</p> <p><b>Qualifications</b> The entry qualifications are Math and English Language plus Physics or a suitable technical/science subject at or above National 5 Grade C or equivalent.</p> <p><b>Behaviours</b> We'll assess you against these behaviours during the selection process:</p> <ul style="list-style-type: none"> <li>Communicating and Influencing</li> <li>Working Together</li> </ul>	<p>hours of 08:00 and 16:00, whilst attending EKGTA. The second and third phases of the training programme will be delivered on-site at DM Beith, however apprentices may require some travel to attend additional off-site development training and courses during each of the phases of training. The aim is for successful candidates to start at DM Beith in August 2025 and subsequently commence training at East Kilbride.</p> <p><b>Responsibilities</b> The primary function of DM Beith is the maintenance, processing, storage and distribution of ammunition and sophisticated weapons. DM Beith provides work-based craft apprenticeships that play an important role and are integral to the provision of business focused training that assists the organisation to meet its business targets and objectives. It should be noted that the post does not offer any allowances within phase one, however allowances to cover travel and subsistence will be valid for additional of site training within phase 2 and 3.</p>	<p>Successful candidates must meet the security requirements before they can be appointed. The level of security needed is <a href="#">security check</a>.</p> <p><a href="#">See our vetting charter</a>. People working with government assets must complete <a href="#">basic personnel security standard</a> checks.</p> <p><b>Selection process details</b> <b>This vacancy is using Success Profiles, and will assess your Behaviours, Experience and Technical skills. Simply click on the link to apply and submit your application with your CV.</b></p> <p><b>Your CV should provide evidence that you can demonstrate the values of the Civil Service behavioural competences as well as the technical competence detailed. You will need to provide this through written examples from previous employments, school/college activities, hobbies, and clubs, volunteering activities or other associated interests.</b></p> <p> 2025 Beith Advert (002).docx</p>

03/03/25	<p><b>Network Rail</b></p> 	<p><b>SCQF Level 7 Engineering Apprenticeship (Scotland)</b>            Make tracks in your career with an Apprenticeship at Network Rail!</p> <p>We're searching for Scotland's next generation of rail apprentices to join us this August and help shape the future of Scotland's Railway.</p> <p>Do you ever think about the engineering that connects communities across Scotland? From the bustling lines linking our eight major cities to the serene routes through the Highlands, we manage a diverse railway network that serves everyone—from local residents to travelling tourists. Well, here at Network Rail, we do. It's our passion and purpose.</p> <p>With 81.1 million passenger journeys in 2023/24, Scotland's Railway is essential to transport and the economy. Our team works alongside ScotRail and other operators, to keep the 2,668 miles of track running smoothly for our passengers and freight users.</p>	<p><b>About the role:</b> As an Engineering Apprentice with Network Rail, you'll be at the heart of Scotland's Railway, working on national projects, embracing the latest tech and gaining hands on experience that will take your career full steam ahead. This opportunity is open to people from all walks of life. Whether you're fresh out of school, switching careers, or looking for a hands-on, rewarding role, we welcome your unique perspective and experiences. Working alongside experienced engineers at one of our depots, you'll help maintain our thousands of bridges, signals and hundreds of our level crossings, ensuring Scotland's Railway keeps moving. The scheme lasts for three years. You'll kick off year one with our training provider in East Kilbride, before moving into a placement at a Network Rail depot for years two and three. Get ready to embrace all weather conditions because we're out there around the clock, come rain or shine but don't worry, we'll provide all the gear you need to stay safe, warm and comfortable</p>	<p><b>SCQF Level 7 Engineering Apprenticeship (Scotland)</b></p> <p><b>Locations:</b> Aberdeen, Crianlarich, Dumfries, Edinburgh, Falkirk, Fife, Glasgow, Helmsdale, Inverness, Lanark, Montrose, Motherwell, Paisley, Perth</p> <p><b>Salary:</b> £19,838</p> <p><b>Start date:</b> August 2025</p> <p><b>Interested in this role?
