Ongoing	DYW 	Overview STEP INTO STEM 2026 – Bigger. Bolder. More Inspiring Than Ever! Following the huge success of our previous events, Step into STEM returns for 2026 with an even bigger and more exciting programme! Hosted at South Lanarkshire College 7th October 9am-1pm, this interactive event is designed for S2 and S4–S6 pupils, helping young people explore future career pathways and make informed subject choices for the next academic year. This is a fantastic opportunity for schools across Lanarkshire and East Dunbartonshire to engage pupils in the exciting world of Science, Technology, Engineering and Mathematics (STEM). Through hands-on experiences and real-world challenges, learners will discover the vast range of careers available, gain insight into cutting-edge industries, and be inspired to continue their studies in maths, science and related subjects.	What to Expect Pupils will take part in a series of engaging, hands-on workshops delivered by South Lanarkshire College, including: - VEX Robotics - Infra-Red Camera Systems - All About Animation - Programming & Coding - Crime Solving Challenges - Pit Stop Challenge - Dental Careers & Technology - Engineering Activities ...and much more! Inspire the Next Generation Step Into STEM is more than just an event—it's an opportunity to spark curiosity, build confidence, and inspire the next generation of scientists, engineers, technologists and innovators. Join us for a day of discovery, innovation and hands-on STEM experiences that could shape future careers. 🚀	South Lanarkshire College STEM 2026 Inspiring today's learners to become tomorrow's innovators. 🚌 Bus Booking: info@dywled.org Event Booking: https://www.eventbrite.co.uk/e/1994000354738?aff=oddtcreator

Ongoing	DYW 	Strathclyde University Technology & Innovation Centre, Glasgow Friday 13 November-9AM - 1 PM Overview Step into FINANCE will take place at the Technology & Innovation Centre at Strathclyde University on the 13th of November from 9.00 am to 1.00 pm We are holding the event in partnership with our colleagues at DYW Glasgow and DYW West and as a result, will be reaching out to over 120 High Schools from West Central Scotland. The aim is to provide secondary school pupils with a wider understanding of the Financial Sector and Professional Service Industries and the potential career opportunities in those fields, whilst hopefully inspiring them to select the relevant subjects and pathways at school that can lead to the sector. This event is available to pupils from S3-S6 year groups. We will be happy to support single booked tickets for senior phase pupils, who are able to travel independently.	 What Can Pupils Expect? The event is a great way to engage with pupils who are unaware of the variety of roles that exist within finance. While traditional careers such as accounting and banking are highlighted, pupils also discover opportunities in areas such as technology, data analysis, cybersecurity, marketing, customer services, insurance, investment and fintech. Employers will also share first-hand experiences, helping young people connect classroom learning to real-world careers Step into Finance also supports informed subject choices by demonstrating the skills and qualifications valued by employers. By engaging directly with industry professionals, pupils gain insight into apprenticeships, college routes, university pathways and employment opportunities to strengthen connection between education and the industry of financial & professional services.	Step into Finance & Professional Services Strathclyde University Booking: https://www.eventbrite.co.uk/e/1993829618060?aff=oddttdtcreator  Location Strathclyde University Mural 99 George Street Technology & Innovation Centre Glasgow G1 1RD

24/08/26	University West of Scotland 	Welcome to the next edition of our newsletter! With schools back in session, we look forward to continuing our work with you to support aspirations, learning, and future success. Please see below our latest updates. The Taking of Battlemount High: book launch and conversation This event will mark the launch of The Taking of Battlemount High, a new novel by UWS academic and former journalist Dr Ken Pratt. The book follows a secondary school pupil trying to cope after the death of his older brother in Afghanistan and looks at how that loss begins to affect his behaviour, relationships, and experience of school. We think the event will be particularly relevant to English teachers, guidance and pastoral staff, principal teachers and colleagues working with and supporting pupils affected by trauma, bereavement, or challenging circumstances. Please see the attached invitation for more information. Wednesday 2 September	UWS will be attending the following UCAS Discovery event so make sure you get booked up and pop along to our stand and say hi! • Forth Valley 27 August 2026, University of Stirling • Dundee 2 September 2026, University of Dundee • Fife 3 September 2026, Carnegie Conference and Events Centre • Aberdeen 8 September 2026, Robert Gordon University • Moray 9 September 2026, University of Highlands and Islands, Elgin Campus • Inverness 10 September 2026, University of Highlands and Islands, Inverness Campus • Glasgow 15 September 2026, SEC Centre, Glasgow • Lanarkshire 16 September 2026, University of the West of Scotland, Lanarkshire Campus • Ayrshire 17 September 2026, Ayrshire College, Kilmarnock Campus • Edinburgh 22 September 2026, Royal Highland Centre	Other Events & Online Information Sessions You can find a full list of our upcoming undergraduate events and online Information Sessions, including how to register here.

24/08/26	BAE Systems 	Work Experience 30 November – 03 December 2026 Join BAE Systems Naval Ships team for a one week work experience placement and earn a Silver Industrial Cadet Award. Our work experience placements will take place Monday to Thursday 8:30am – 3.30pm for pupils aged 16-18 and will take place at our Scotstoun site. Students will learn about BAE Systems' business, apprenticeship programmes and also spend time in a workshop environment taking part in hands on activities and creating a project. The week finishes with group presentations during which the participants share the knowledge they have gained.	The aim of the placement is for students to develop their skills and experience through face-to-face sessions and activities devised and delivered by our apprentices and engineers. From pipework to project managers, steelworkers and electricians, participants will learn from the experts in their fields. They will discover the impact they are making on the future of ship design and about the wide range of career pathways available for school leavers. In addition, students will work on an individual project and spend time with our early careers experts who will help them explore their strengths and the opportunities offered by the company. Please note that while the Work Experience programmes are designed to expose participants to life at BAE Systems in general, the Scotstoun programmes will have a larger focus towards electrical, plumbing, pipe welding, sheet metal design and fabrication crafts.	Applications to close approximately 8 weeks before the programme begins. However, they may close earlier if high volumes of applications are received – we recommend applying as soon as possible to avoid missing out. Qualification requirements This programme is for those 16 – 18 and in Year 12 or 13/ S5 or S6 Start date: 30 November 2026 APPLY HERE: Work Experience Job Scotstoun BAE Systems

17/08/26	World Space Week 	Launch A Rocket During World Space Week 2026 This year's World Space Week theme, Rocket Revolution, celebrates the growing accessibility of rocketry and the many ways people can explore space through hands-on activities. Whether you're building a baking soda and vinegar rocket, a water rocket, a paper rocket, or launching a certified model rocket, every launch is an opportunity to inspire curiosity, creativity, and innovation. We encourage you to take part, regardless of your age, background, or experience. Gather your family, classmates, colleagues, or local community and launch a rocket during World Space Week (October 4–10, 2026). Register your activity on the World Space Week website and add it to the global activity map. World Space Week Celebrate UN-declared World Space Week, 4-10 October annually, the largest space event in the world Let's fill the map with rocket launches from every corner of the globe!	Everything You Need To Get Started Not sure where to begin? Our rocket launch toolkit has everything you need to launch a rocket during World Space Week. Whether you're launching a certified model rocket or building one from everyday materials you can find at home or school, the toolkit provides step-by-step tutorials and resources to help you get started safely and confidently. Designed in collaboration with Estes Rockets for educators, students, families, and community groups, the activities are easy to recreate and suitable for a range of ages and experience levels. Explore the toolkit, choose your favorite rocket project, and add your launch as an event on the website! World Space Week Celebrate UN-declared World Space Week, 4-10 October annually, the largest space event in the world	Share Your Launch! Your launch can inspire others to join the Rocket Revolution! Whether you're launching a rocket, completing a rocket-themed lesson, or bringing your creativity to life with rocket artwork, we'd love to see your World Space Week activities. Take photos or videos of your event and share them on social media using #RocketRevolution. Be sure to tag @WorldSpaceWeek for a chance to win exciting prizes, certificates, and online recognition. To qualify, include a visible World Space Week logo, poster, or printed text somewhere in your photo or video. Please note that digitally added logos or text are not recommended. Show us how you're celebrating World Space Week, and inspire others around the world to join the Rocket Revolution this year! World Space Week Celebrate UN-declared World Space Week, 4-10 October annually, the largest space event in the world

17/08/26	Carousel Training 	At Carousel Training Centre, we are passionate about helping young people take their first exciting steps into a rewarding career in childcare. As young people begin thinking about their next chapter after leaving school, we are pleased to offer Modern Apprenticeship opportunities in childcare for motivated 16–19-year-olds who are ready to start building their future. Our Modern Apprenticeship program allows them to earn while they learn, securing a job and gaining valuable hands-on experience in real childcare settings while working towards a national recognized qualification. It's the perfect pathway for anyone passionate about working with children and who wants to develop practical skills, confidence and a long-term career.	At Carousel Training Centre, we pride ourselves on providing: • Dedicated one-to-one support from experienced assessors. • High-Quality training tailored to each apprentice. • Help with securing suitable employment. • Ongoing guidance to ensure every learner has the best possible start to their career. We understand that leaving school is a significant milestone, and our friendly team is committed to supporting young people. 	We would love to hear from anyone who is considering a career in childcare, we would be delighted if you could share our apprenticeship opportunities with your pupils, parents and career advisors. We are also happy to visit your school, attend careers events or provide information sessions to discuss the exciting opportunities available. Together, we can help young people take their first steps towards a fulfilling and successful career in childcare. If you would like to find out more or discuss how we can support your students, please don't hesitate to get in touch. We look forward to working with you and supporting the next generation of professionals. 17/08/26	 Jane Stratton Cognitive Learning Specialist	Cognitive Assessments & Neurodivergent Learning Support The UK's only licensed Structure of Intellect Systems (SOI) Assessments & Training Everyone is gifted... ...and everyone deserves the opportunity to thrive. But many people find the traditional environments of school, college, university, or work challenging - just because their brain works a little differently.	As the UK's only SOI trainers and assessors, Jane Stratton and her team are transforming the lives of neurodivergent people of all ages through tailored SOI assessments and cognitive learning programmes. SOI is a research-based programme that helps people identify and improve intellectual capabilities. Successful learning requires a combination of abilities. SOI has been designed to help every brain succeed in education, work, and beyond, by analysing each skill and creating a personalised plan so learners can discover their strengths and build on their successes.	How we can help you! We are looking to pilot an SOI programme to a group of school pupils identified as needing additional learning support. We are looking for a group of 6 to 8 pupils. If you work in a school and can identify a group that we could assess and provide a programme for, please get in touch with Jane at jane@giftedonline.co.uk Pupils do not need a diagnosis to take part but do need to be identified as needing extra support with their learning and are motivated to accept this support. Find more information about what we do at: www.cognitivespecialist.co.uk

17/08/26	ISS World UK 	Offering ISS World UK proposes a one-hour interactive outreach session for secondary schools across Scotland. The aim is to introduce students to the world of Facilities Management (FM), highlight the diverse career pathways within the sector, and inspire young people to consider FM as a future profession. This programme aligns with Scotland's Developing the Young Workforce (DYW) strategy by providing real-world industry insight, employability skills, and exposure to modern workplace environments. By showcasing the essential work of ISS World UK and the diverse career opportunities available, we aim to support young people in making informed choices about their future while strengthening school-industry connections.	Objectives • Raise aspirations & awareness for routes into careers, encourage interest in apprenticeships, early-career programmes, and future employment opportunities. • Develop Employability Skills: Help students identify and build core skills such as communication, teamworking, and problem-solving. • Increase awareness of the Facilities Management and Services industry and showcase the variety of roles within ISS World UK. • Provide practical, engaging activities that help students understand FM in action. • Support schools in delivering career education and linking learning to the workplace. • Embed green skills and sustainability awareness by helping students understand how FM contributes to carbon reduction, energy efficiency, waste management, biodiversity, and responsible resource use.	Schools Outreach Proposal:  Schools Outreach Proposal - Scotland.p Target Audience S1–S6 students in Scottish secondary schools. Content tailored by year group: S1–S3: Broad introduction to FM, interactive demonstrations, and skills awareness. S4–S6: Deeper dive into career pathways, apprenticeships, and employability skills. Career Opportunities At ISS, we keep schools, hospitals, offices and specialist sites running safely and smoothly. We offer a wide range of careers across Facilities Management, Engineering, Cleaning Services, Catering & Hospitality, Front of House and Security as well as the usual Business Administration roles to enable our work like Finance, HR and Project Management. 17/08/26	Skills Exchange SCIO 	We are pleased to let you know that Let's Grow will be starting on 17 August 2026 at Skills Exchange SCIO, and we are now accepting referrals. Let's Grow is designed to support young people aged 16–24 living in South Lanarkshire to develop practical skills, confidence and employability through hands-on learning. Participants will work towards an SQA qualification in Estate Maintenance while building essential life and work skills in a supportive environment.	The programme offers: • Practical estate maintenance and gardening skills • Opportunities to gain an SQA qualification • Confidence and wellbeing development • Supportive, friendly learning environment • Help to progress towards further training, volunteering or employment If you are currently supporting any young people who would benefit from this opportunity, we would be delighted to discuss the programme and referral process with you. Places are limited, so early referrals are encouraged.	For more information or to make a referral, please contact us: Skills Exchange SCIO lyn@skillscio.org
