Offers highlighted are targeted for DYW Champions to cascade the Scottish Government DYW priorities.

26/10/26	**The Glasgow Science Centre**	**<u>Free Experiences for Secondary Pupils at Glasgow Science Centre</u>** ****GSC Bus Funding available on booking**** **David Elder Schools Lecture with Dr Ellie Armstrong – 6th November 2026** S1/S2 Limited free places available <u>About the Lecture</u> How do people learn about outer space? After all, very few people (or animals!) go to outer space as astronauts! My research helps us understand what we learn when we learn about outer space at museums - particularly in science and natural history museums. In this talk I'll show some of the different ways that museums from Chile to Norway show us outer space - and how I went there as part of my job. Dr Armstrong works at the University of Leicester, where she studies how people learn about other space, and what kinds of things they learn. She runs the Constellations Lab, a group of people interested in questions about gender and outer space. <u>About the visit</u>	****GSC Bus Funding available on booking**** ***Learning Lab - Free Places – S1 & S2*** *Our curriculum-linked Learning Lab include an online Meet the Expert session, hands-on activities and projects to do in class and a free, topic linked, visit to Glasgow Science Centre for participating pupils.* *Topics available are:* ***Photonic in Focus** - Exploring the science of light and the technologies that have revolutionised the way we live. Supported by PQA.* ***Powering the Future** - Exploring the Future of Energy. Pupils will investigate renewables technologies and the pathway to net zero. Along the way, they will discover opportunities in the energy sector and explore how their skills could change the world. Supported by OPITO.* *Free places are limited - to register please email learninglab@gsc.org.uk*	****GSC Bus Funding available on booking**** ***STEM Futures in Hydro Power – Free hands on STEM skills workshops for S3-S6*** ***Wednesday – Fridays in November*** *Funding is available to assist with transport costs to the Science Centre.* ***Source to Socket Workshop: S3-S4*** *Follow the journey of electricity from generation to distribution. In this workshop, learners will take on the role of an electrical engineer to fault-find and repair an electrical circuit. In doing so, they will discover the principles of electrical engineering, as well as some of the key roles in maintaining the grid that we all rely on.* ***HydroWorks: S5-S6*** **Workshop Detail:** *Hydropower is a key part of Scotland's energy mix. But how does it generate electricity? What goes into expanding a scheme? In this workshop, learners will discover the fundamentals of hydropower by creating their own small hydropower units, while also exploring the practical skills required to take on a career in Scotland's growing renewables sector.*

26/10/26	**The Voice LAB**	**About The Voice Lab** The Voice Lab began as a grassroots initiative in Lanarkshire, created in response to a clear need for accessible communication training and opportunities for young people. What started as a small community project has grown into a charity dedicated to helping young people find their voice and use it with confidence. As a charity, we reinvest our resources into expanding our programmes and strengthening our impact across the community. Our focus is simple: to make high-quality communication coaching available to every young person, regardless of background or circumstance. Working in partnership with local groups, schools and youth organisations, we've developed a distinctive approach that blends communication coaching with personal development and community building. Our workshops are practical, supportive and rooted in real-world skills that help young people thrive in education, work and everyday life.	**The Voice LAB: Three flexible workshop options:** a half-day workshop, full-day workshop and three-session programme, all of which can be tailored to suit individual schools, their pupils and timetables. I can also offer bespoke sessions designed around specific school priorities or requirements, whether that's building confidence, strengthening presentation skills, supporting employability programmes or developing communication skills within particular subject areas.. The workshops focus on developing practical public speaking and communication skills, helping young people build confidence, express themselves clearly, present their ideas and communicate effectively in different situations. As we all know, these are valuable skills not only for education and employability, but for everyday life too. **<u>Bring the LAB to Your School</u>** **<u>Contact</u>** Margaret Gilmour - Founder Tel: 07954 895004 Email: info@thevoicelab.uk margaret@thevoicelab.uk

DYW School Coordinator Weekly Updates

All information has been shared to school coordinators with an intertest in Developing the Young Workforce, Skills Development Scotland and the events programme highlighted for Lanarkshire & East Dunbartonshire. Offers highlighted are targeted for DYW Champions to cascade the Scottish Government DYW priorities.

26/10/26	**KPMG**	**KPMG UK 2027 Apprenticeship & Graduate programmes are now open for applications!** Our programmes in Audit, Tax, Consulting and Corporate Services give students a great start to a career in the world of business with a supportive community by their side. They'll study for professional qualifications and gain valuable hands-on experience. We'll have more opportunities launching early next year for Apprentices, Graduates and Work Experience placements. Students who sign up to our Talent Community will be the first to hear of all new vacancies as they open!	**Apprenticeships Audit - Apprenticeship Glasgow Autumn 2027** **Location: Glasgow** **Capability: Audit** **Experience level: Apprenticeships** **Employment type: Full Time** **Why Audit?** In Audit, we support sustainable business growth by examining organisations and providing a true and fair view of their financial position. Our work helps to build public trust in organisations and the economy as a whole. The information that we provide can also help businesses to operate more efficiently and mitigate their financial risk.	**Programme Overview** **Capability: Audit** **Programme Length: 5 Years** **Qualifications:** **AAT Level 3/4 plus the ACA qualification or CA equivalent (Scotland locations)** **Entry Requirements:** 5 GCSEs* at A* – C or at 4 – 9 (inc. English Language and Maths at Grade B or 5), or for Scotland 5 National 5 qualifications at Grades A – C (inc. English Language and Maths at Grade B or equivalent) 120 UCAS points* from your 'top' 3 grades, excluding General Studies under the 2017 tariff point system at A Level (300 UCAS points pre-2017) or at Higher/Advanced Higher Level for Scotland. **Think this Apprenticeship sounds right for you? Click the application LINK:** Vacancies Learn more about what we look for and how to apply here.

26/10/26	**KPMG**	**KPMG UK 2027 Apprenticeship & Graduate programmes are now open for applications!** Our programmes in Audit, Tax, Consulting and Corporate Services give students a great start to a career in the world of business with a supportive community by their side. They'll study for professional qualifications and gain valuable hands-on experience. We'll have more opportunities launching early next year for Apprentices, Graduates and Work Experience placements. Students who sign up to our Talent Community will be the first to hear of all new vacancies as they open!	**Apprenticeships Tax - Apprenticeship Glasgow Autumn 2027** **Location: Glasgow** **Capability: Tax & Law** **Experience level: Apprenticeships** **Employment type: Full Time** **Why Tax?** Our Tax practice collaborates with all kinds of organisations and businesses of different sizes, across a wide range of specialisms. We also advise on all aspects of employee reward and support high-net-worth individuals and entrepreneurial families too. As you'd expect, there is rapid technological innovation and increased regulation in this area, with government trying to drive greater transparency and use tax as an incentive to achieve environmental and social targets. That means you're entering a world that is fast-moving, challenging and exciting.	**Programme Overview** **Capability: Tax & Law** **Programme Length: 5 years** **Qualifications:** **AAT Level 3/4 plus the ACA qualification or CA equivalent (Scotland locations)** **Entry Requirements:** 5 GCSEs* at A* – C or at 4 – 9 (inc.
